

FULL STACK DEVELOPER

EDU WALTER ARMAS ALIAGA

Lima, Peru - [linkedin.com/in/edu-armas/](https://www.linkedin.com/in/edu-armas/) - +51 965 728 013 - eduarmascontact@gmail.com

<https://github.com/BigNight1>

Full Stack Developer with over 2 years of experience leading end-to-end projects in e-commerce, real-time applications, and video games. Passionate about innovation, automation, and continuous improvement. Skilled in modern technologies such as React, Node.js, Express, MongoDB, and Firebase. Known for fast learning, adaptability, strong user experience focus, and the ability to translate business requirements into efficient and maintainable technical solutions.

EXPERIENCE

Video Game Developer

Unity 2D (Bonsai.meme) "Remote".

February 2025 - May 2025

- I participated in the development of a 2D top-down video game with Unity.
- I joined a foreign team, adapting myself quickly to new technologies and methodologies agile.
- Coordinated weekly deliveries with international client, optimizing the user experience on PC and mobile.

Full Stack Developer - Project "E-commerce Venta de Polos".

([Ecommerce Polo Shirts Sale](#))

Lima, Peru

June 2025-Present

- Led the development of a full stack e-commerce platform, managing both frontend and backend.
- **Frontend:** React, TypeScript, Context API, Tailwind CSS, payment gateway integration, cart management, user authentication, admin panel and responsive user experience.
- **Backend:** Node.js, NestJS, Express, MongoDB, Mongoose, JWT, Passport, payment integration (Izipay), RESTful endpoints, authentication and authorization, order and product management.
- **DevOps:** Deployment in Vercel, version control with Git and GitHub, technical documentation and automated testing.
- Implemented advanced functionalities such as image upload, product reviews, notifications and administrative panel for inventory and order management.
- Publicly available project with documentation and user guides for users and testers.

Front-End Developer - eCommerce Project

(Independent Project)

Lima, Peru

Sep 2022 - Dec 2022

- Led the complete development of an online store with React and Firebase.
- I built a shopping cart system based on React Context, streamlining the checkout.
- I designed a responsive UI with load times < 2 s (Lighthouse > 90).

Full Stack Developer – Embedded Chatbots Platform

(Independent Project for a Startup)

- Designed and developed both frontend and backend, ensuring a scalable architecture and optimal performance.
- Implemented fast-integration features using reusable and configurable components.
- Collaborated directly with the startup to define requirements, propose improvements, and deliver a production-ready product.

EDUCATION

Full Stack Career, Coderhouse

Intensive program that covered Front-End (HTML5, CSS3, JavaScript ES6+, React) and Back-End (Node.js, Express, databases) development; I got certifications in web development and programming.
